Emergency Response, Evacuation Procedures, and Fire Drills

Our College building has clearly-marked exit signs should you be required to evacuate. There are fire extinguishers in the corridors. There are smoke alarms, water sprinklers and battery-operated exit signs. Students may request to see our fire safety report by contacting our Administrative Coordinator.

AMC will notify students, patients, faculty, and staff upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, patients, or employees occurring on the campus. AMC will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless the notification will, in the professional judgment of responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

When an evacuation is deemed necessary, students are to leave the building by the stairs and meet on the sidewalk by Kendall Drive. If necessary, any non-ambulatory patients should be assisted or carried out of the building. AMC conducts fire drills annually.

Should there be a hurricane or other act of nature, the city and county will provide instructions for evacuation.

Any emergency situation involving a threat to life or property should be immediately reported to the POLICE. The caller should stay on the line until the dispatcher terminates the call. **Do not hang up.**

Emergency police, fire, or medical assistance can be obtained by calling **9-1-1**. Protection of persons and property is the primary mission of the Police. State and local laws are enforced at AMC.

Security Report

Campus crime statistics are tabulated and provided annually to all students, faculty and staff at orientation and every September thereafter. Additional copies are available upon request. [Crime statistics](#) are also available online.
